

Directory of sustainable construction and renovation experts in Brussels

ecobuild.brussels

ecobuild.brussels is the network for sustainable construction and renovation in Brussels, Belgium. Our cluster currently brings together more than 230 companies in this sector and promotes the development of their activities.

As an agent of change for 15 years, ecobuild.brussels is also a pioneer and opinion leader, particularly in the fields of building renovation and circular construction.

Contact

Do you need a contact in Belgium? Consult our member catalogue, which is categorised by industry. Do you need more specific information on their specialisations? Take a look at our website! You will find a description of the companies and an overview of their latest achievements.

Members of ecobuild.brussels interested in developing their activities outside Belgium or wanting to create international partnerships are identified by an *.
